Level 1

Beginner Ground Course - 2hrs: \$139.00

Absolutely essential for anyone thinking about getting into the sport. All students start with a small foil training kite until they learn the mechanics of the steering, and have a good understanding of the "Wind Window". Kiteboarding is most quickly mastered by breaking down the learning process. Learning to fly the kite properly and safely before entering the water will dramatically improve your learning curve. This on land class covers rigging, tuning, line management, kite safety, and flying techniques. By completing this 2 hour course, the student will be able to safely launch, land and operate a Kiteboarding kite on land. " knowing the kite like the back of your hand, will make getting on a board a breeze! "

Level 2

Inflatable Kites - 3hrs: \$300.00

Goals: Safe operation of an inflatable kite, body dragging with the kite and self rescue.

You will learn:

- Introduction to inflatable kites
- Rigging and setup of the kite
- How an inflatable kite works
- Safety systems and how the leash works
- Review of the wind window
- Launching and landing the kite
- Flying the kite in shallow water
- Relaunching the kite in deep water
- Self rescue, how to get back
- Body dragging with the kite
- Body dragging upwind
- Kite and body position
- Control of sailing direction
- Self landing and self rescue

Level 3

Introduction to Riding: - 3hrs: \$300.00

Goals: To get up on a board.

You will learn:

- Review of Level 2
- Introduction of the board
- ISelf rescue with board
- How to put the board on
- How to control board and body position
- How to water start
- Board control and power control when riding
- IRight of ways

One Full Day of Kiteboarding

4 hrs coaching - \$400 per student

This intensive all day program will give you an overall introduction to the sport of Kiteboarding with good understanding of safety, kite flying and a taste of riding.

The program will start with equipment familiarization. Ground school on a trainer kite is followed by on water instruction. This lesson is customizable to the individual student. It will advance at your own rate

Though not a comprehensive lesson, this full day of instruction will leave you with a good taste of the sport. You will want to book your next visit with us for our level 2 and/or 3 programs or opt for our two day fast track program. After this lesson, some people are able to get up and ride safely and ride up-wind.

Two Day Fast Track Program

8 hrs - \$600.00

This class was designed for the workingman and woman. Any two days in a row for 4 hours a day, and you'll be an accomplished beginner kite boarder. This is Level 2 and Level 3 combined with extra flight time and extended instruction. The main benefit of this class is striking the iron while it's still hot. Flight time and muscle memorization are the 2 key items for all beginners.

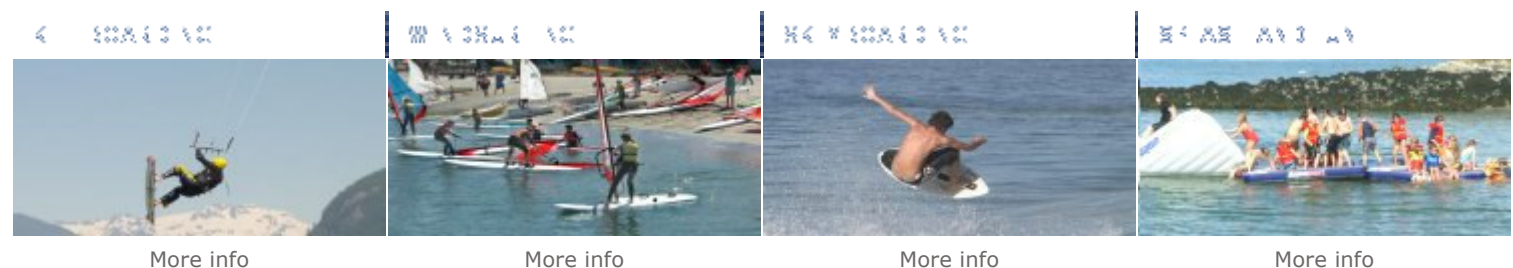

Notes:

Windsure provides Kites, boards, wetsuit, harness, helmets and lifejackets. Booties are highly recommended, they are available for purchase if required.

On completion of lesson one, we recommend our students purchase a three meter trainer kite in order to increase their kite skills. The more time spent flying the trainer kite, the better future lesson will be.
